Information about member safety, volunteering and shooting interest

The safety of our members, community guests and neighbors is of utmost importance to the long-term survival of BASA. There will be materials and instruction made available to a new member before using the range facility. Every new member will be required to demonstrate the safe use of firearm(s) and appropriate conduct when using the range either by oneself or at a range activity, through a practical demonstration of proficiency as observed by a BASA instructor and the completion of a questionnaire.

(Be advised that until BASA opens a range, this policy will not be in use.)

I, _____, agree to complete this safety training.

Name of certifying staff member: _____

Date completed: _____

BASA is a non-profit social club that is fortunate to have a long-term lease on this present range location. As such, the number of hours required to operate and maintain the range facility and staff range activities is great and must be provided through the efforts of member volunteers. Most costs, (payment of insurance premiums, utilities, website hosting, advertising, replacement of consumables for example), will be paid by collecting membership fees and charging reasonable fees for range activities.

Please list any skills, expertise, equipment, and/or materials you are willing to offer as a volunteer. Examples may include but are not limited to: coaching, range safety officer, activity coordinator, member on board of directors, committee member, range maintenance and repair, etc.

BASA will have available for it's members, and guests from the community, a facility that offers both hand gun and rifle shooting opportunities. Please describe what your specific shooting interests are.
